the 7th Pay Commission-related salary requirements and other mandatory expenditure towards teaching, non-teaching and hospital staff are appropriately considered while determining the fee structure.

The reduction of the sanctioned intake from 100 seats to 70 seats will have a significant adverse financial impact on the institution for the next 4.5 years. This reduction in revenue may make it increasingly difficult for the institution to maintain and further increase the salaries of teaching, non-teaching and hospital staff and to meet the mandatory regulatory requirements.

We assure the Hon'ble Commission that the management is making sincere and continuous efforts to complete all the remaining deficiencies at the earliest.

We undertake to complete the remaining deficiencies within one month, to the extent practically possible, and to ensure continued compliance with the norms and regulations of the National Commission for Homoeopathy.

An undertaking on behalf of the institution is enclosed herewith for kind consideration.
